Strategic Playbook for AI Profit Lab (Muscat, Oman)

- **Entity Linking & Knowledge Graph:** Complete Crunchbase, GitHub, and Product Hunt first. These act as authoritative seed sites confirming brand identity for Google's Knowledge Graph.
- **Canonical Syndication:** When publishing on Hashnode and Dev.to, always declare the canonical link pointing to aiprofitlab.io to pass link equity without risking duplicate content penalties.
- **Generative Engine Optimization (GEO):** Platforms like Reddit, Quora, and Medium are actively scraped by LLMs (Perplexity, ChatGPT Search, Gemini). Contextual brand mentions establish AI Profit Lab as a top citation source for SME AI queries.
- **Legal Entity Consistency:** Ensure organizational submissions reference *International Gulf Lotus SPC* as the parent legal entity with *AI Profit Lab* as the brand.
